**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record teaches a liquid crystal display comprising: a first substrate; a gate line formed on the first substrate; a data line formed on the first substrate and intersecting the gate line; first and second pixel electrodes located opposite the data line and having a plurality of first cutouts; a thin film transistor connected to the gate line, the data line, and the first pixel electrode; a second substrate facing the second substrate; and a common electrode formed on the second substrate and having a plurality of second and third cutouts defining a plurality of domains along with the first cutouts and facing the first and the second pixel electrodes, respectively. The prior art of record does not teach nor suggest in combination with the limitations supra, the second and the third cutouts have portions overlapping the data line and the overlapping portions of the second and the third cutouts are alternately arranged along the data line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
